PART 3: INITIAL BASELINE DATA FOR EDUCATION REFORM ASSURANCES**SPECIAL NOTES:**

- In completing this portion of the application, please refer to Appendix B – Instructions for Part 3: Initial Baseline Data for Education Reform Assurances.
- The data described in Appendix B for two of the education reform assurances in Part 2 of the application – the Improving Assessments Assurance and the Improving Standards Assurance – are the most current available baseline data for these areas. Thus, the Department is not inviting States to submit additional information with respect to these two assurances.
- The Governor or his/her authorized representative should confirm whether the initial baseline data sources described in Appendix B for the four assurances referenced below – Achieving Equity in Teacher Distribution; Improving Collection and Use of Data; Improving State Academic Content and Student Achievement Standards; and Supporting Struggling Schools – reflect the State's current status with respect to these assurances. A State that confirms the use of these initial baseline data sources does not have to submit additional baseline data with this application. If a State elects not to use the identified data sources for one or more of these four assurances, it must submit other initial baseline data for that assurance.

The Governor or his/her authorized representative confirms that the data sources that are currently available to the Department and described in Appendix B are a reasonable reflection of the current status of the State with respect to the following education reform assurances that he/she provided in Part 2 of the Application (*check only those assurances for which the State accepts the data described in Appendix B*):

- ☒ Achieving Equity in Teacher Distribution Assurance.
- ☒ Improving Collection and Use of Data Assurance.
- ☒ Improving Standards Assurance.
- ☒ Supporting Struggling Schools Assurance.

2. State's Primary Education Funding Formulae

Information on File with the U.S. Department of Education – No Further Action Necessary

Additional Submission Requirement: In an attachment to the application, identify and describe each of the State's primary elementary and secondary education funding formulae that were used in determining the calculations provided above for the levels of State support for elementary and secondary education.

3. Data on State Support for Postsecondary Education

Information on File with the U.S. Department of Education – No Further Action Necessary

Additional Submission Requirement: In an attachment to the application, identify and describe the specific State data sources that were used in determining the calculations provided above for the levels of State support for public IHEs.

4. Restoration Amounts

Based on the Worksheets included in Appendix D, calculate and provide the amount of Education Stabilization funds that the State will use to restore the levels of State support for elementary, secondary, and postsecondary education in FYs 2009, 2010 and 2011. As explained in the Instructions in Appendix D, a State must determine the amount of funds needed to restore fully the levels of State support for elementary, secondary, and postsecondary education in FY 2009 before determining the amount of funds available to restore the levels of such support in FY 2010.

SPECIAL NOTES:

- The calculations for these data must be based on the State's total Education Stabilization Fund allocation as reflected in Appendix A and not on the State's initial Education Stabilization Fund award.
- Although the State must follow the Instructions in Appendix D, in order to determine the amount of funds that LEAs and IHEs will receive under the program (i.e., the "restoration amounts"), the Governor has discretion in determining when to release these funds to LEAs and IHEs.

- (a) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for elementary and secondary education in FY 2009 \$ 0
- (b) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for public IHEs in FY 2009 \$ 0
- (c) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for elementary and secondary education in FY 2010 \$ 93,668,750
- (d) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for public IHEs in FY 2010 \$ 0
- (e) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for elementary and secondary education in FY 2011 \$ 140,287,176
- (f) Amount of the State's total Education Stabilization Fund allocation to be used to restore the level of State support for public IHEs in FY 2011 \$ 0
- (g) Amount of remaining funds, if any, awarded as subgrants to LEAs based on their proportionate shares of funding under Part A of Title I of the ESEA \$ 0

5. Process for Awarding Funds to Public IHEs

Information on File with the U.S. Department of Education – No Further Action Necessary

Additional Submission Requirement: In an attachment to the application, describe the process that the State will use to determine the amount of funding that individual public IHEs will receive from the funds that the State sets aside to restore the levels of State support for these institutions.

**PART 5, SECTION B: STATE USES OF THE
GOVERNMENT SERVICES FUND**

SPECIAL NOTES:

- Section B of Part 5 requests data on the Government Services Fund (CFDA No. 84.397).
- In this section, provide preliminary estimates of the percentage of the Government Services Fund that the State intends to spend under various broad categories (to the extent such estimates are available). The total percentages in the chart should equal 100 percent.
- To the extent such estimates are available, the estimated percentages must be based on the State's total Government Services Fund allocation and not on the State's initial Government Services Fund award.

SPECIAL NOTES:

- Under section 14012(d) of ARRA, a State may treat any portion of Stabilization funds used for elementary, secondary or postsecondary education as non-Federal funds for the purpose of any requirements to maintain fiscal effort under any other program administered by the Department.
- For FY 2009 and FY 2010, please provide the amount of Stabilization funds that the State used to meet maintenance of effort requirements under the ESEA and IDEA.
- For FY 2011, please provide the amount of Stabilization funds that the State intends to use to to meet maintenance of effort requirements under the ESEA and IDEA.

PART 6: ACCOUNTABILITY, TRANSPARENCY, AND REPORTING ASSURANCES

The Governor or his/her authorized representative assures that the State will comply with all of the accountability, transparency, and reporting requirements that apply to the Stabilization program, including the following:

- For each year of the program, the State will submit a report to the Secretary, at such time and in such manner as the Secretary may require, that describes:
 - the uses of funds within the State;
 - how the State distributed the funds it received;
 - the number of jobs that the Governor estimates were saved or created with the funds;
 - tax increases that the Governor estimates were averted because of the funds;
 - the State's progress in reducing inequities in the distribution of highly qualified teachers, implementing a State longitudinal data system, and developing and implementing valid and reliable assessments for limited English proficient students and children with disabilities;
 - the tuition and fee increases for in-State students imposed by public IHEs and a description of any actions taken by the State to limit the increases;
 - the extent to which public IHEs maintained, increased, or decreased enrollment of in-State students, including those students eligible for Pell Grants or other need-based financial aid; and
 - a description of each modernization, renovation or repair project funded, including the amounts awarded and project costs. (ARRA Division A, Section 14008)
- The State will cooperate with any Comptroller General evaluation of the uses of funds and the impact of funding on the progress made toward closing achievement gaps. (ARRA Division A, Section 14009)
- If the State uses funds for any infrastructure investment, the State will certify that the investment received the full review and vetting required by law and that the chief executive accepts responsibility that the investment is an appropriate use of taxpayer funds. This certification will include a description of the investment, the estimated total cost, and the amount of covered funds to be used. The certification will be posted on the State's website and linked to www.Recovery.gov. A State or local agency may not use funds under the ARRA for infrastructure investment funding unless this certification is made and posted. (ARRA Division A, Section 1511)
- The State will submit reports, within 10 days after the end of each calendar quarter, that contain the information required under section 1512(c) of the ARRA in accordance with any guidance issued by Office of Management and Budget or the Department. (ARRA Division A, Section 1512(c))
- The State will cooperate with any Inspector General examination of records under the program. (ARRA Division A, Section 1515)

NEBRASKA RESPONSE

The level of state support for public elementary and secondary education represents the total amount (i.e., aggregate basis) of unrestricted aid provided to local school districts by the State of Nebraska in accord with the state's primary funding formula: the Tax Equity and Educational Opportunities Support Act, Neb. Rev. Stat. §79-1001 et seq. (2008), as amended by LB 545, 2009 Neb. Laws, LB 5, 2009 Neb. Laws, First Special Session, and LB18, 2011 Neb. Laws.

All amounts represent the total funding appropriated, certified, and distributed to local school districts. Actual aid appropriations are documented in the *Nebraska Information System*. For FY 2010, the amount represents the \$824,960,159 General Funds appropriated and documented in LB 545A, §1, 2009 Neb. Laws and \$15,247,109 of available Insurance Premium Tax revenues. For FY 2011, FY 2011 aid will be funded with \$795,941,720 General Funds and \$13,992,840 of actual Insurance Premium Tax revenues (LB 373, §29, as introduced on January 13, 2011).

- b. Identify and describe the data sources used in determining the levels of State support for public IHEs.**

NEBRASKA RESPONSE

The level of state support for public higher education in Nebraska represents the total amount of unrestricted General Fund appropriations provided to the: 1) Nebraska Community College System; 2) Nebraska State College System; and 3) University of Nebraska.

For FY 2006, the amount represents actual General Fund appropriations less earmarks. General Fund earmarks totaled \$20,791,137 in FY 2006, including but not limited to the \$11.2 million earmark for "targeted research at the University of Nebraska". Actual appropriations are documented by the *Nebraska Information System*. For FY 2009, General Fund appropriations less earmarks for public higher education are based on appropriations authorized in LB 321, §183, §184, §258, and §259, 2007 Neb. Laws and LB 342A, §1, 2008 Neb. Laws. For FY 2010, General Fund appropriations less earmarks are authorized in LB 1, §148, §149, and §215, 2009 Neb. Laws, First Special Session, LB 603A, §7, 2009 Neb. Laws, and also includes a \$10 million transfer provided for by LB 2, §1, 2009 Neb. Laws. For FY 2011, General Fund appropriations less earmarks are authorized in LB 1, §148, §149, and §215, 2009 Neb. Laws, First Special Session, and LB 603A, §7, 2009 Neb. Laws.

Explanation of Changes to Amended SFSF Phase I Application

On February 10, 2011, the Governor signed LB 18 into law officially re-certifying FY 2011 aid—distributed according to Nebraska's primary elementary and secondary school funding formula—at \$1,008,832,476. This higher aid level reflects the \$58,610,740 of additional K-12 school aid to be distributed pursuant to the federal Education Jobs Fund (Public Law 111-226).

The re-certified aid distribution does not change the total level of state support and makes no changes to any restoration amounts for FY 2009, FY 2010 and FY 2011. However, to adjust for higher than anticipated levels of Insurance Premium Tax revenues, FY 2011 aid will be funded with \$795,941,720 of General Funds and \$13,992,840 of Insurance Premium Tax revenues (LB 373, §29, as introduced on January 13, 2011).

Identified Obstacles for All Data Elements included in this Plan

The major obstacle for implementing all data elements in the SFSF Assurances is the timelines. Since Nebraska has received the SFSF funds, legislation has been passed requiring a Memorandum of Understanding (MOU) between the Department of Education and all postsecondary institutions. The MOUs were completed by June 2010. An implementation committee was formed of representatives of the postsecondary institutions, Department of Labor, Nebraska State Education Association, Nebraska's Coordinating Commission for Postsecondary Education, and nonpublic educators. The P-16 Goal 3 Implementation Committee has met regularly since August, 2010 and has developed a set of recommendations for the Data Governing Council defined in the MOU. The MOU identifies the Data Governing Council as:

- The Commissioner of Education, or his or her designee;
- President of the University of Nebraska, or his or her designee;
- Chancellor of the Nebraska State College System, or his or her designee; and
- The Executive Director of the Nebraska Community College Association or successor organization, or his or her designee.

The Data Governing Council has adopted the following recommendations:

1. Create a postsecondary data system that meets the P-16 Goal 3 requirements with the following essential capabilities:
 - Provide a unique statewide student identifier for all students at all levels of Nebraska education, with assurance that privacy issues are resolved.
 - Track student progress through Nebraska's public education system, P-20, including student-level enrollment, degree completion, and demographic data for all schools, public colleges and universities.
 - Match student records between the P-12 and higher education systems, with initial focus on public institutions.

- Report back to high schools on the college readiness of their graduates.
- Match student records with data on employment.
- Audit statewide data to ensure data quality, validity and reliability.
- Ensure security and enable responsible use of data through an effective data governance committee.
- Design, provide support and conduct specific research activities to promote the development of solutions to Nebraska's most significant educational challenges.

2. Create a Nebraska system that meets Federal requirements.

A technical team was created to lead the implementation and has begun the task of assigning the NDE Student ID to all postsecondary students. The technical team consists of representatives of each of the postsecondary institutions and is currently defining the data elements necessary to meet the requirements of the SFSF assurances.

Nature and Frequency of Reports for all Data Elements included in this Plan

Information from the State of the Schools Report will be used to report progress on the SFSF Data Collection and Reporting requirements through links to the SFSF Application Phase II and vice versa. The SFSF Application Phase II website is the primary source of information on this plan. It will be posted in its entirety at: http://www.education.ne.gov/ARRA/Data_Collection_Public_Reporting.html, which is found on the homepage for the Nebraska Department of Education. The SFSF Application Phase II will also be linked to Nebraska Recovery (the State's ARRA homepage) at: <http://www.recovery.nebraska.gov>.

Costs and Source of Funds for all Data Elements included in this Plan

Funds for the expansion of the P-12 student record system to a P-16 system were appropriated by the Nebraska legislature in LB 333, which was signed into law March 15, 2011. These funds will be used to support staff and contractual obligations associated with the P-16 system.

As part of the 2007 State Longitudinal Data System, four trainers were hired to provide technical assistance and training to districts in data quality and submitting data. The trainers are extending their work to include training and technical assistance to the postsecondary institutions.

Persons Responsible

The Federal Programs and Data Services Team has the primary responsibility for this activity.

Data Element 1:	A unique statewide student identifier P-16
Data Elements 2 and 3:	Student-level enrollment, demographic, program participation information and information about the points at which students exit, transfer in, transfer out, drop out, or complete P-16 education programs
Data Element 4:	The capacity to communicate with higher education data systems

NDE currently owns the license to the eScholar Uniq-ID[®] for Students and eScholar Complete Data Warehouse[®] for PK-12 products. The license for the eScholar Uniq-ID[®] was expanded to include

postsecondary students. The technical team and the trainers are currently working to assign NDE Student ID numbers to all postsecondary students that do not currently have one.

The Data Governing Council is considering the option of building a process to collect the postsecondary student data rather than purchasing the eScholar templates due to cost. The technical team is meeting regularly to discuss the data elements and processes necessary to do this. Once these decisions have been finalized, the NSSRS Validation system will be expanded to address the new data elements to ensure data quality. The NSSRS Validation system is a set of tools that allows users to reprocess validations after submitting data to identify any errors or warnings. Verification reports summarize and organize data so that the user can more easily verify the accuracy of the data submitted. Various look-up tools enable the user to troubleshoot data-related problems or create extracts for further investigation. The NDE Trainer Team will provide training and technical assistance to staff at postsecondary institutions.

Data Elements 8 and 9:	A teacher identifier system with the ability to match teachers to students and Student-level transcript information (courses completed and grades earned)
-------------------------------	---

Nebraska has developed a unique staff ID system for all teachers and numbers will be assigned in March 2011. This system will replace the existing use of Social Security numbers as an identifier for teachers. For the 2010-11 school year, Nebraska implemented the process necessary to match teachers and students by expanding the current eScholar data model in order that a given student is linked to the particular teachers primarily responsible for providing instruction in various subjects. The courses that each student completes and the grades they earn will be captured on the *Student Grades* template. Each course and section will be identified through NDE's existing course taxonomy and will require the addition of a "section" identifier for each course.

As with all NSSRS data collections, NSSRS Data Manager will be used by school districts to submit data, NSSRS Validation will be used by school districts to ensure that data submitted is correct, and NDE will work with vendors of student information systems used by Nebraska school districts to ensure reporting requirements are understood. Many additional reports have been developed in support of this outcome for use by district and NDE staff.

An external advisory group continues to provide input into the business rules for appropriate linking of student performance to teachers and reporting of grades for courses completed.

Jan – June 2010	Add Courses Completed and Grades Earned to the NSSRS
	Consultation with internal and external groups to develop detailed requirements for collecting data on the Student Grades template.
